ABOUT ME

I am a Front-End Developer with a long entrepreneur story. As a freelancer, I have created landing pages and institutional websites for real clients, and even started a business. Today, I work as an intern for a startup, Codi Academy, and learning a lot! But I am young, passionate for coding, and still have some free time, so I'm open to new projects!

EXPERIENCE

Associated Entrepreneur - Polishop

May - 2017 | April - 2019

When I was 16 years old, I started in business on Network Marketing with Polishop. It taught me a lot about sells, business and leadership. When I was just 17, I had R\$ 10,000 / month in sales on my network!

Co-Founder- TR League

March - 2018 | July - 2022

I've founded an startup, trleague.com.br, where I was responsible for the business managing, but I got falling in love by technology, and decided after this 4 years, to quit the project and become a developer.

Freelancer Front-End Developer

July - 2022 | Now

When I quit TR League I've been working as a Freelancer Developer, creating websites and landing pages for all kind of clients. It has been a large source of learning and experience on the market.

Front End Developer - Codi Academy

Abril - 2023 | Atual

I started an intern job in a startup called Codi Academy (edtech), where I'm learning a lot by doing different roles, and have a lot of challenges!
